

The Ground Water Protection Committee

Performing education and outreach on groundwater issues since 1980

Why join the Ground Water Protection Committee?

The Ground Water Protection Committee (GWPC) is the only intermunicipal organization in the state that is dedicated to the protection of ground water. Founded in 1980, the GWPC provides a coordinated perspective on ground water management and serves as a resource and advocate for ground water dependent towns. By becoming a municipal member of the GWPC, you will gain information, assistance, and opportunities to improve the management of your most vital resource — ground water.

Financial support from our members allows the GWPC to:

- Advise on topics such as well-head protection, recharge, stream base flow, and maintenance of water supply to municipal elected officials and government bodies such as planning/zoning boards and environmental commissions;
- Create forums through our annual Ground Water Summit and our publication, the *Ground Water Sentinel*, for discussion of ground water issues directly and in the context of larger social concerns like the push for open space preservation or the Highlands Act;
- Aid in the education of citizens and their representatives via a variety of materials, video as well as printed, that explain the nature and importance of ground water;
- Coordinate ground water issues with the NJDEP, NJGS, and other government agencies vital to the protection of our ground water supplies.

To become a member, have your municipality process the attached invoice and send to:

Ground Water Protection Committee
c/o Passaic River Coalition
330 Speedwell Ave
Morristown, NJ 07960

If you have questions about the GWPC, please contact our Chairman, Richard Plambeck, at fightingil63@aol.com. We look forward to having your municipality as a member of the Committee.
